WATCH CASE DEPARTMENT.

We would respectfully present to our customers and the trade in general, in a compact and useful form, an illustrated catalogue, containing Photographic representations, taken from the cases themselves, of almost every style Watch Case known to the trade.

This work is designed as an aid in facilitating the ordering of work, and renders unnecessary a knowledge of the technical terms which are used in designating the different styles, each cut having

its own particular number, it is only necessary for us to be advised of the number, to understand the wants of the trade.

Of course in a work of this character, it would be impossible to represent any great variety of patterns of engraving; but the sample styles will serve to give a general idea of the kind of work we are making. Our workmen in this branch are of the best, and we are constantly changing our styles, and producing new and unique designs.

Our aim is to make none but first-class work, equal to the best, of standard and uniform quality, equal in all cases to what it is represented to be, and at prices as

low as can be furnished by any other reliable house in the trade.

Our past success stimulates us to renewed exertions, and we hope, with our increased facilities, by strict attention to business, superiority in workmanship, and promptness in filling orders, to merit the confidence of the trade.

We have constantly on hand a well assorted line of cases, and make to order, when necessary, at short notice.

A share of your patronage is solicited

Respectfully, Yours,

BOOZ, HAGSTOZ & THOMAS.
